# Ⓜ

**1. There are 6 states in the Pre-Programmed Equalizer Settings:**

(EQ NORMAL)

(EQ OPTIMUM)

(EQ ROCK)

(EQ JAZZ)

(EQ CLASSIC)

(EQ COUNTRY)

**2. Remote control distance < 6 meters** (19- 20 feet)

**3. 2.4G Bluetooth® audio receiving/transmitting frequency 2.4G**

**4. When the Bluetooth® remote control light is on, battery needs to be replaced**

<u>**Performance Characteristics and Indicators**</u>

1. Power on default Bluetooth® connection

2. When plugging in USB, audio enters USB music player

3. When plugging in the AUX external audio plug, audio enters the external audio playback mode.

4. During USB and AUX playback, Bluetooth® can play a priority into play

5. Power PWM (2.1 mode) (2*18W+1*40Winto2*4Ω, 1*8Ωat25V)

6. Frequency range and frequency response is 20~20000Hz

7. Loudness 85dB

8. Distortion less than .005% 1000 Hz

9. Impedance 4Ω/8Ω

10. Signal to noise ratio 90dB

11. Input impedance 100kΩ

12. Input sensitivity 300 mv

13. SOUNDSTAGE™ Digital Output Power 50W

14. SOUNDSTAGE™ Bluetooth® audio receiving/transmitting frequency 2.4G

## Precautions in Use

Improper use may damage the SOUNDSTAGE™ audio system. The following methods can extend the life of your SOUNDSTAGE™ system last longer.

1. The normal working temperature of audio equipment is 0°C -45°C. (32° to 113°) If the exposed ambient temperature is too high, the components may be damaged, and accelerate the aging of the electrical components.

2. SOUNDSTAGE™ Control Panel should not be exposed to direct sunlight and exposed heat sources.

3. Avoid maximum sound levels during playback to prolong component life.

*Contact your local retailer or dealer for service and answers to any questions relating to your new SOUNDSTAGE™ product. If assistance is needed in locating an Authorized Retailer, please call 888.578.8710, toll-free.*
