THE EVENTS OF RECENT YEARS HAVE CAUSED

# A SHIFT IN HOW WE WORK FROM HOME AND CREATED NEW WAYS FOR US TO ENJOY OUR LEISURE TIME.

MOST IMPORTANTLY, THEY HAVE FORCED EVERYONE TO BECOME  
MORE COMFORTABLE WITH TECHNOLOGY.

**THERE'S NEVER BEEN A BETTER TIME TO INTRODUCE SOUNDSTAGE,  
THE NEXT EVOLUTION IN HOME FURNISHINGS.**

WIRELESS REMOTE  
TO CONTROL ALL  
YOUR AUDIO  
FUNCTIONS

 **Bluetooth**<sup>®</sup>

**SOUNDSTAGE incorporates patented cutting-edge sound technology into beautiful designer seating that everyone can enjoy. This technology provides attributes you won't find in any other home decor.**

First, with SOUNDSTAGE Immersive Soundbar Seating, it's like having High Definition concert quality sound in the comfort of your favorite new chair. SOUNDSTAGE connects wirelessly to any Bluetooth®-enabled device, including smart TVs, laptops, tablets, gaming systems, and of course, mobile phones for hands-free calling.

And it's so easy to use. SOUNDSTAGE Immersive Soundbar Seating operates with a handheld-wireless remote control for all audio functions. Each chair is outfitted with up to two whisper-quiet actuators to allow the user to recline or operate a footrest independently from the touch of a control button on the chair.

A second technology includes a patented system that amplifies ambient sound. With SOUNDSTAGE, you can easily hear a TV, or a conversation from up to 25 feet away in crystal clear clarity.

This amplification system is the perfect technology for those who need a little extra help hearing a nearby conversation, or listening to TV audio without headphones or external connections. SOUNDSTAGE also allows users to select amplification favoring a left ear, right ear, or both.

Every SOUNDSTAGE product is manufactured with the highest level of materials and quality control. Expertly tailored in every detail, SOUNDSTAGE is available in a wide range of Top Grain Premium Italian Leathers, Breathable Polyurethane Covers, or Designer Performance Fabrics.

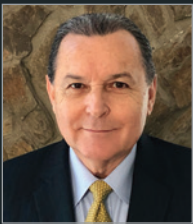

Best of all, the 1.8 Density Contour Foam has been pressure mapped to ensure the most comfortable seat in the house, whether you are watching TV, listening to music, or heavily engaged in your favorite interactive game.

DUAL MOTORS ALLOW FOR INDEPENDENT MOVEMENT OF BACKREST AND FOOTREST

MODEL	WIDTH	HEIGHT	DEPTH
7400-M	30.3 "	42.5 "	33.5 "
7400-L	31.5 "	46.5 "	33.5 "

THIS TECHNOLOGY PROVIDES  
ATTRIBUTES YOU WON'T FIND  
IN ANY OTHER HOME DECOR.
